Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussed with Ms. Lombillo that if the term "isolated" was added to the nucleotide in claim 19 and the host cell in claim 8 the claims would be in condition for allowance. Ms Lombillo did not want to add "isolated" to the host cell of claim 8 even after the examiner advised her that the vector can be a retrovirus and adding this to a host cell reads broadly on a host cell that is a transgenic animal which could be a human. Ms Lombillo stated that she needed to consider this and wanted an Office Action to state the rejection. The examiner agreed that an Office Action will be sent out.
